

.: Managed Hosting

What you need, worryfree

As businesses move more increasingly toward the Web, it's the unexpected that can send you scrambling. And while they're different for everyone, one thing's certain – they'll occur at the worst possible time, for the smallest possible reason. That eats up valuable resources and compromises your ability to do business. With managed hosting services from Jelec, your worries will be eliminated.

Jelec's managed hosting services don't start and end with a box. We combine years of hands-on experience and technical expertise with the best hardware solutions available to deliver managed hosting services that provide you exactly what you need to meet your business objectives and expectations.

We deliver a highly reliable and scalable hosting service that can be customized to meet your exact requirements. We leverage proven technologies, along with senior engineering and systems staff expertise, to deliver the right combination of service, support and capability.

Our managed hosting services ensure the highest possible degree of efficiency, protection and capacity along with these added benefits:

- Multiple SAS-70 audited data centers
- Scalable hosting solutions to meet the needs of entry-level and multi-location environments
- Redundant, protected and high-capacity hosting solutions
